What to do

How to do it

Look at things that can cause injury or damage, thinking about activity, location and surroundings

Think about the people around, not just members, who could be injured or affected by the activity

See matrix below. Think about how serious the risk is to people and property. What is already in place to prevent the injury or damage and does this reduce the risk?

List actions required to reduce risk. Decide if you want to go ahead.

Make sure everyone knows what they are going to do and by when. Make sure it is done and record it

Severity \ Likelihood		Slight harm	Harmful	Extremely harmful
		superficial injuries, minor cuts and bruises	minor fractures, ill health leading to minor disability	multiple injuries, major fractures, fatalities
Unlikely Rarely happens		Low	Low	Medium
Likely Often happens		Low	Medium	High
Very likely Nearly always happens		Medium	High	High
